

Malvern Community Hospital

Sector:	Health
Client:	NHS Worcestershire and Worcestershire Primary Care Trust
Main Contractor:	Interserve
Budget:	£60,000
Duration:	8 weeks
Completion:	December 2009

The Department of Health and HM Treasury approved £19.3 million of capital funding in December 2007 to construct a new community hospital in Malvern. It was agreed that a new 24-bed hospital would be built at Seaford Court, in Malvern Link, with a planned opening date to the public of Autumn 2010.

Renov8 was awarded an eight week £66,000 labour and fixings only contract to erect the roof of traditional construction involving fixing of wall plates, rafters, fascias and soffits. The company also installed the temporary plywood decking throughout the construction, for access purposes.
